

PPL Demand Response Program Snapshot

PPL Service Area Map

PPL Demand Response Program

The PPL Demand Response Program is a load curtailment program which meets the Act 129 legislation peak reduction goals, which went into effect in November 2008, requiring Pennsylvania Electric Distribution Companies (EDCs), to cost-effectively reduce electricity consumption and peak demand on their systems.

Programs	PPL Demand Response Program
Minimum Size	Minimum load reduction must be 100 kW (may be aggregated within a load zone).
Number & Duration of Events	Events will last 4 hours and can be called any weekday (other than NERC holidays), during June – September. The maximum of 6 events per year.
Notifications	Customers will receive a day-ahead email notification at 10:30 am and at 1:45 pm. They will also be reminded of the event on the day off at least 3 hours prior to the event by email.
Compliance	It is a Voluntary Program
Settlements	Customers are paid their average hourly energy reduction payment
Consequences of Non Performance	Customers will be paid based on their performance.
Testing	If no events called during the year, one-hour test will be facilitated in September
Enrollment Deadline	Enrollment continues through the year based on MW availability
Metering	Each account must have at least a 1-hour utility grade interval meter

*The North American Electric Reliability Corporation (NERC) is a not-for-profit international regulatory authority whose mission is to assure the reliability of the bulk power system in North America. There are six identified U.S. holidays each year: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day.

PPL Demand Response Payments – Get Paid for Events at \$700/MWh

Get Paid for 8-hours even if an actual event is not called when you perform at the committed level during a test*

How Much Will I Earn?							
Payment per MWh	Test Event	1 Event	2 Events	3 Events	4 events	5 Events	6 Events
Total Payment \$700/ MWh for each Participating MWh	\$5,600	\$5,600	\$5,600	\$8,400	\$11,200	\$14,000	\$16,800
You are paid for 8-hours even if a real event is never called when you perform during the test				You are paid for performance for each 4-hour event from 2-6 events in the season			

Example: if you enroll 2MWs in the PPL Demand Response Program and participate in each event - you would earn a minimum of \$11,200 (test event and/ or 1 event) and up to \$33,600 maximum (if 6 events were called).

*You must show up for all events to get paid for those events. I.e. If an actual event is called you must show up for both to be paid for 8-hours

**Must perform at committed MW amount during the test and/or events
